Overview

- Recognize Changes
 - Technology
 - Operations
 - Performance
- Manage Expectations
- Train, train, train

Recognize Changes

- Technology
 - Audio quality will be different
 - Operations may be impacted
 - Performance and coverage will change

Recognize Changes

- Operations
 - Procedures may need to change

Recognize Changes

- Performance
 - Coverage
 - Audio Quality

Manage Expectations

- Understand the differences from the legacy systems and/or configurations that were in use
- Know the capabilities *and* limitations of simulcast technology

Train, train, train

- No such thing as too much training
- End users should know what to expect and how to operate in advance

Questions & Comments
